# Flight Board App

## Android version

Version 1.0 November 2013

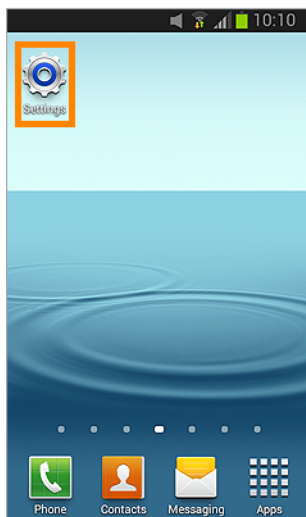

## Flight Board App for Android smartphones

### First step

As this is a private application, we are going to make a **manual installation** -not from *Play Store* as we are used to. So, before the installation process, make sure the configuration of your Android smartphone allows this. Let's check it by going to [Settings > Security > Unknown sources](#). This option has to be **on**, as shown in the picture.

## Installation

Now that we have our smartphone ready, we will download the apk (Android application). Use the internet browser to open the link <http://www.ftejerez.com/apps>. On the page, click on the Android button to download the app.

In the upper left hand corner of your screen, an animated downward pointing arrow will display. When the animation stops, the download is complete. Click on the arrow or pull down the Status bar at the top of the screen and you should see the newly downloaded application.

(If you want to do it later, this downloaded apk installer is located in the Downloads folder of your phone).

Now click on the name of the application. You will have to complete the action by using the Android Package Installer. Simply click and... that's it! Now Flight Board is installed on your phone.

A complete list of flights is now displayed. You can make a filtered list by date, selecting the options **Date from** and **Date to**, and you also use the **Captain** and **Crew** options to see a more precise list.

You can order the list itself by Captain or Crew by clicking these titles with small yellow triangles on the header of the list.

The button **My Flights** will show you the list of your own flights.

**Date selection** (Date from: 30/1/2014, Date to: 31/1/2014)

**Sign out**

**Captain and Crew selection** (Captain: --All--, Crew: --All--)

**Order alphabetically by Captain or Crew (▲▼)** (CAPTAIN, CREW)

**Display only My Flights** (My Flights button)
